College of Engineering
Congrats!

THREE REASONS FOR YOU TO BECOME AN Aztec for Life

1. GIFT FOR YOU
Receive a FREE $115 SDSU Bookstore Gift Card or Diploma Frame!
*Gift card can be used to purchase your cap and gown

2. $125 OFF LIFETIME MEMBERSHIP
$500 membership for only $375
Payment plans begin at $125 down and $22/mo

3. $150 VOUCHER on Jostens class rings

Plus a lifetime of benefits!

Become an SDSU Alumni Lifetime Member today
SDSUALUMNI.ORG/2021
A MESSAGE FROM THE CHANCELLOR

Dear Class of 2021:

In this most extraordinary year, I offer my deep admiration, gratitude and sincere congratulations to a most extraordinary class of graduates.

As numerous forces upended our world, you held your dreams steadily in sight and persisted in your studies through challenges none of us could have imagined. Unlike any other CSU graduating class past or future, you have by necessity developed and demonstrated skills—far beyond your academic work—that will ensure your continued success: resilience, flexibility, resourcefulness, patience and tenacity. While so much and so many have been lost, your resolve has shone as a symbol of hope and optimism—and you should be proud.

On behalf of the entire California State University community, I am certainly proud to present you to the world as our newest class of CSU alumni, joining an impressive international network now nearly 4 million strong. Together, you will power the recovery of our state and nation, educate our next generation, fight for social justice, and create new and sustainable opportunities for health, security and prosperity for us all. I encourage you to stay connected to your campus and your peers, to look for opportunities to give back, and to support the future generations who will follow in your footsteps.

And as our many months of physical separation begin to come to a close, I hope you will hold in your hearts all of those who have supported you from afar. The faculty who broadened and deepened your understanding of the world. The counselors, advisors, librarians, tutors, coaches, facilities and support staff who created a nurturing environment of care and growth. Your family and friends, whose belief in you never wavered.

All of these people have been forever impressed by your spirit, determination and accomplishments. Please count me among them—and I know you will continue to make us proud.

Again, congratulations to the class of 2021!

Sincerely,

Joseph I. Castro
Chancellor
San Diego State University

122nd Commencement
Dear Graduate:

On behalf of the San Diego State University community, congratulations on your graduation!

I wish to acknowledge the dedication, resilience, and support of all those who helped you get here: your family members, friends, your SDSU faculty and staff—all of whom played an important role to support or mentor you during your degree. Just as important, the personal dedication, courage, and tenacity you have demonstrated this past year exemplify the critical skills California and the world needs to move us to a brighter future.

Your graduation marks not just a moment of celebration; it honors the years of learning and growth which precedes it. At the same time, our graduation ceremony is referred to as a commencement—the point at which something begins, not where it ends.

This month, in more ways than one, marks a new beginning for you. You are now a graduate. You are now formally recognized for your years of study and expertise in a field aligned with your career aspirations. You are also now part of San Diego State University’s proud alumni tradition as the Class of 2021. This is an exceptional family to join—a community of nearly 476,000 living alumni throughout the United States and abroad—known for leading and serving our region and our world. SDSU alumni create and grow businesses; serve communities as government officials, teach the next generation of leaders; make scientific discoveries; produce creative contributions to the arts; and advance innovations in countless fields.

Now, as our world faces important challenges, it is your turn to lead and serve. We are certain that the skills that helped you succeed at SDSU will give you the confidence to take on the opportunities that lie ahead.

As your list of accomplishments grows, we hope you will return often to your university, to your roots, to your home. There will be new generations of students looking to learn from you, as alumni. Know that we will always welcome you back. Your continued participation in the SDSU community is one of our future student’s most valuable assets.

Today, you graduate with our respect, our pride, and with formal recognition of your achievements and your untapped potential. We are grateful for the role you have played in the life of this very special university, and celebrate you with heartfelt affection.

With warm regards,

Adela de la Torre, Ph.D.
President
Dear College of Engineering Graduate,

Many congratulations on your graduation from the College of Engineering!

The completion of your degree has required a great deal of diligence and perseverance, especially during these challenging times while dealing with the coronavirus pandemic. As you might have heard, commencement does not mean an end to your studies, but rather a beginning. The same traits that enabled you to have a successful academic career will be called on throughout your professional life. Thus, you have learned much more than facts and techniques at San Diego State University. You have honed the intellectual and personal qualities that will sustain your continued success. Please accept my best wishes for professional and personal fulfillment as you commence the next phase of your life.

We very much appreciate your commitment to learning and forging your academic path in these extraordinary and challenging times. And we are proud that we all made it clear that the strength of an institution of higher learning, like SDSU, and the quality and value of the education you received, could endure any storm.

It is my hope that you will remain in contact with us over the years. I encourage you to become involved in San Diego State University’s Alumni Association. In addition, the engineering professional societies are excellent ways to stay in touch with your alma mater and with other engineers in your field.

We truly look forward to hearing of your future success. Once again, congratulations and good luck with your future endeavors!

With best wishes,

Eugene Olevsky, Ph.D.
Dean, College of Engineering
GRADUATES

College of Engineering
OUTSTANDING GRADUATES AND MOST INFLUENTIAL FACULTY

COLLEGE OF ENGINEERING OUTSTANDING STUDENT

Student: David Pierce Walker-Howell  
Faculty: Mr. Barry Dorr

Weber Honors College

Students graduating from the Weber Honors College have successfully earned at least 15 units in small, challenging, interdisciplinary honors courses. The Weber Honors College features a wide range of opportunities that help students broaden their knowledge, gain new perspectives, and understand complex issues from diverse points of view. Weber Honors College students experience one-on-one scholarly partnerships with distinguished faculty, complete a culminating portfolio, engage in university and community service activities, and further enrich their education through study abroad.

University-wide Honor Societies

PHI KAPPA PHI

Candidates for the Honor Society of Phi Kappa Phi are selected from juniors in the upper 7.5 percent of their class and from seniors and graduate students in the upper ten percent of their classes. Phi Kappa Phi was founded at the University of Maine in 1897; San Diego State University’s chapter was established in 1965.

PHI BETA KAPPA

Phi Beta Kappa is the nation’s oldest scholarly honor society, founded in 1776 at the College of William and Mary in Williamsburg, Virginia. The chapter at San Diego State University (Nu), first in the California State University and first in San Diego, was established in 1974. Students are invited to join Phi Beta Kappa for excelling in the liberal arts and sciences.

To be considered for membership in the Jane K. Smith Cap and Gown Chapter of Mortar Board, students must have senior standing for the fall semester with an overall grade point average of 3.2 and have participated and excelled in the areas of scholarship, leadership and service. Mortar Board, which was founded in 1918, had its beginning at SDSU in 1932 as Cap and Gown. In 1965, the local honor society was recognized as a member of the national society. Admission to Mortar Board is highly competitive. Membership is restricted to no more than 40 students per year.

TAU SIGMA

Tau Sigma is a national academic honor society designed specifically to recognize and promote the academic excellence and involvement of transfer students. Tau Sigma was originally founded in 1999 at Auburn University in Alabama. San Diego State University’s chapter was established in August 2017. Students are invited for earning a 3.5 grade point average during their first term.

TRADITION

Academic Regalia
Academic Dress

Academic dress, also known as academic regalia, originated in Medieval European universities during the 14th century, when commencement ceremonies were associated with religious ordination. In observance of tradition, all participants in commencement ceremonies wear full academic regalia, consisting of a traditional black gown, hood and mortar board.

Bachelor’s and master’s gowns are plain, although sometimes worn with honor cords or stoles. The doctoral gown is trimmed down the front and around the sleeves with bands of velvet, either in black or a color associated with the graduate’s field of study. Sleeve styles also vary with the degree: pointed sleeves on the bachelor’s gown; short sleeves for the master’s; and round, full sleeves for the doctoral robe.

The standard cap worn with academic regalia is the mortar board in black. Graduates with a bachelor’s degree wear a red and black tassel to represent SDSU school colors and graduates with a master’s degree wear an all-black tassel. Doctoral graduates wear a tam with a gold tassel.

Postgraduate candidates wear hoods that fit around the neck in front and drape down over the robe in back. The hood lining displays the university colors of red and black. In addition, colored velvet edging on the hood corresponds to the graduate’s field of study. The doctoral hood is longer than the master’s hood, and trimmed with additional velvet panels.

The Gown

The typical academic gown is black, but some institutions choose colored gowns to signify certain colleges, universities or degrees. Bachelor’s and master’s gowns are plain, although sometimes worn with honor cords or stoles. The doctoral gown is trimmed down the front and around the sleeves with bands of velvet, either in black or a color associated with the graduate’s field of study. Sleeve styles also vary with the degree: pointed sleeves on the bachelor’s gown; short sleeves for the master’s; and round, full sleeves for the doctoral robe.

The Hood

Graduates holding master’s and doctoral degrees also typically wear a hood that fits around the neck in front and drapes down over the robe in back. The hood lining displays colors associated with particular schools. Chevrons in a second color indicate a dual emphasis, while colored velvet edging on the hood corresponds to the graduate’s field of study. The doctoral hood is longer than the master’s hood, and trimmed with additional velvet panels.

The Cap

The standard cap worn with academic regalia is the mortar board in black. Graduates with a bachelor’s degree wear a red and black tassel to represent SDSU school colors and graduates with a master’s degree wear an all-black tassel. Doctoral graduates wear a tam with a gold tassel.
Ceremonial Mace

The ceremonial mace, a symbol of university scholarship and integrity since the 11th century, is carried at the head of the academic procession at commencement and other special occasions to signify the importance of the event and the values of the university.

The university's mace was designed and handcrafted for San Diego State University by Michael Rybicki, an alumnus of the Master of Fine Arts jewelry and metalsmithing program.

The mace takes the iconic image of Hepner Hall as its main inspiration. Hepner Hall stands at the historic heart of the campus, and its bell tower and arch are well-loved symbols of the university for students, alumni and the entire San Diego community. A stylized silhouette of the bell tower, made of four curved sheets of sterling silver, sits atop a silver bowl formed by the traditional skill of hand raising—a metalworking method dating back thousands of years. The sleek curves of the tower resting on the hand-hammered bowl represent the blending of SDSU's proud history with its modern and forward-facing scholarship, research and community engagement. These sculptural elements sit atop a turned and carved walnut handle.

Presidential Medallion

The medallion worn by President Adela de la Torre at commencement was designed for her installation as the ninth president of San Diego State University on April 11, 2019. It was designed and created by metalsmith graduate student Rex Arthur Ramos. The nine waves of the medallion represent the past and current nine presidents of SDSU, each bringing a new wave of leadership. The circular shape of the medallion symbolizes a globe while iconic Hepner Hall encompasses this shape, reinforcing SDSU's global influence. SDSU is depicted at the very center of this globe on an abstract map of the local region. The inclusion of the border represents a university with many different cultures, while the coastal line signifies the nature that surrounds SDSU. The contemporary look of the medallion reflects a vision of the future for SDSU guided by President de la Torre.
Massi Joseph E. Kiani saves lives. In 2012, as founder of the Patient Safety Movement Foundation, he launched a mission to reduce drastically the number of preventable deaths in U.S. hospitals, which is estimated to claim the lives of more than 200,000 patients annually. The movement soon became global, with more than 54 countries and 4,793 hospitals joining and reporting more than 366,353 lives saved worldwide.

Mr. Kiani is the founder, chair and chief executive officer of Masimo, a medical device company that focuses on medical monitoring. Masimo’s pulse oximetry technology has been the cornerstone technology of the company, which has more than 800 patents, including 200 patents with Mr. Kiani as an inventor. The company employs more than 7,000 people worldwide. In 2013, Mr. Kiani appeared before the U.S. Senate Health, Education, Labor and Pensions Committee and outlined five steps to help eradicate preventable patient deaths. He is well-recognized as a national and global leader in this area.

His philosophy has always been to focus on saving lives. The Masimo Foundation of Ethics, Innovation and Competition in Healthcare has provided considerable support for the Patient Safety Movement Foundation. As a result of Mr. Kiani’s leadership, these initiatives have profoundly advanced the creation of a culture of safety in health care facilities in the United States and around the world. For these efforts, he was named an honorary member of The Mexican Academy of Surgeons (Academia Mexicana de Cirugía A.C.), an advisory body of the Mexican federal government. Becker’s Hospital Review has named him one of “50 Experts Leading the Field of Patient Safety” repeatedly, and he is the only patient safety expert who is also a chief executive officer of a medical technology company.

Mr. Kiani has been a longtime member of the San Diego State College of Engineering Advisory Board, a $100,000 donor to the Digital Signal Processing program in honor of his faculty mentor, Fred Harris, and a recipient of San Diego State's Distinguished Alumni Award. He received both his bachelor’s and master’s degrees from San Diego State in electrical engineering.

In recognition of his innovative achievements and generous philanthropy in support of health, safety and education, the Board of Trustees of the California State University and San Diego State University are proud to confer upon Massi Joseph E. Kiani the honorary degree of Doctor of Science.
Stephen P. Doyle is a proud and active alumnus of San Diego State University, where he earned his engineering degree in 1980. He later earned a Juris Doctorate from the University of San Diego School of Law. Mr. Doyle is currently president and owner of Sandy Point Properties, an infill builder and developer in San Diego County.

Mr. Doyle was elected president of the San Diego Building Industry Association in 2001. He was president for the California Building Industry Association in 2005. As past president of the board of the Construction Industry Alliance for the City of Hope, he helped raise more than $2 million for cancer research. Mr. Doyle was named to the California Building Industry Hall of Fame in March 2007 and the San Diego Building Industry Hall of Fame in 2009. He was named a Distinguished Alumni for the University of San Diego School of Law in 2011. In 2013, Mr. Doyle and his wife were awarded the Walk the Talk Award from Just in Time for Foster Youth for their work with former foster children. Mr. Doyle received the Outstanding USO Partner Award for his efforts to refurbish the Downtown Service Center in 2015.

Mr. Doyle is a long-serving member of San Diego State University College of Engineering Dean's Advisory Board, and has served as board chair since 2015. He helped the college establish a construction engineering and management program that continues to grow every year. In 2008, Mr. Doyle received the San Diego State University College of Engineering Outstanding Alumni Award, earning him the prized Monty Award. In 2017, he joined San Diego State University's Campanile Foundation Board and served as fundraising chair of the Engineering and Interdisciplinary Sciences Complex on the San Diego State University campus. The $90 million structure featuring classrooms, labs and student study space opened in 2018.

In 2018, Mr. Doyle’s leadership on the Friends of SDSU Committee was instrumental in passing Measure G. This allowed the university to purchase the Mission Valley property and expand its offerings through SDSU Mission Valley. His extensive background in law and real estate was vital in the land acquisition that took almost two years to complete.

In recognition of his outstanding professional and philanthropic achievements, the Board of Trustees of the California State University and San Diego State University are proud to confer upon Stephen P. Doyle the honorary degree of Doctor of Science.
Honorary Degrees Conferred by SDSU

1963  John F. Kennedy, Doctor of Laws
1966  Glenn T. Seaborg, Doctor of Laws
1968  Edwin O. Reischauer, Doctor of Laws
1996  Bernard Lipinsky, Doctor of Humane Letters
1996  Alvena Storm, Doctor of Humane Letters
1997  D. Bruce Johnstone, Doctor of Humane Letters
1997  Shimon Peres, Doctor of Laws
1998  Arthur Barron, Doctor of Humane Letters
1998  Vahac Mardirosian, Doctor of Humane Letters
1999  Shirley Chisholm, Doctor of Humane Letters
1999  James D. Sinagel, Doctor of Humane Letters
2002  Miguel León Portilla, Doctor of Letters
2002  George Walker Smith, Doctor of Humane Letters
2002  Dwight E. Stanford, Doctor of Laws
2002  Claire Van Vliet, Doctor of Fine Arts
2003  John Baldessari, Doctor of Fine Arts
2003  Charles F. Bolden, Doctor of Science
2003  Sol Price, Doctor of Humane Letters
2004  Kathleen Kennedy, Doctor of Fine Arts
2005  Norman Brinker, Doctor of Humane Letters
2005  Andreas Brown, Doctor of Fine Arts
2005  Ron L. Fowler, Doctor of Humane Letters
2006  Irwin Jacobs, Doctor of Science
2006  Craig Noel, Doctor of Fine Arts
2007  Martha W. Longnecker, Doctor of Fine Arts
2007  Deborah Szekely, Doctor of Humane Letters
2007  Leon Lawson Williams, Doctor of Humane Letters
2008  Darlene V. Shiley, Doctor of Fine Arts
2009  Malin Burnham, Doctor of Humane Letters
2009  The Honorable Pete Wilson, Doctor of Laws
2010  Ambassador Charles W. Hostler, Doctor of Humane Letters
